

Shadow Index

Frontier Models to define Shadow index in industries & firms

Problem

Hidden Wealth

\$12.5trn

11.5% of world GDP is being hidden annually.

Tax Evasion in Uzbekistan

**8 Billion (20%
effektiv soliq)**

Gov loses hundreds of Billions in taxes worldwide

Investment Risk

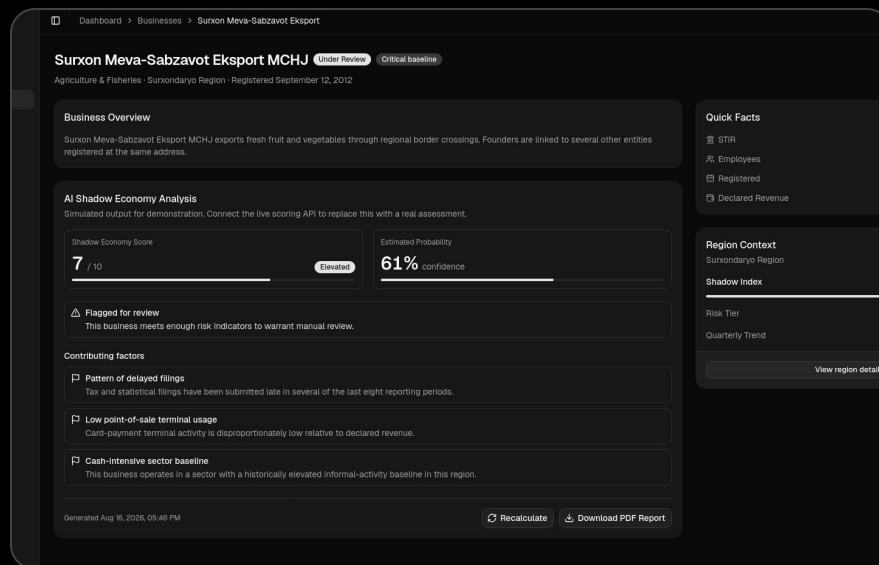

High

Higher Shadow Economy regions = Less Foreign Investment

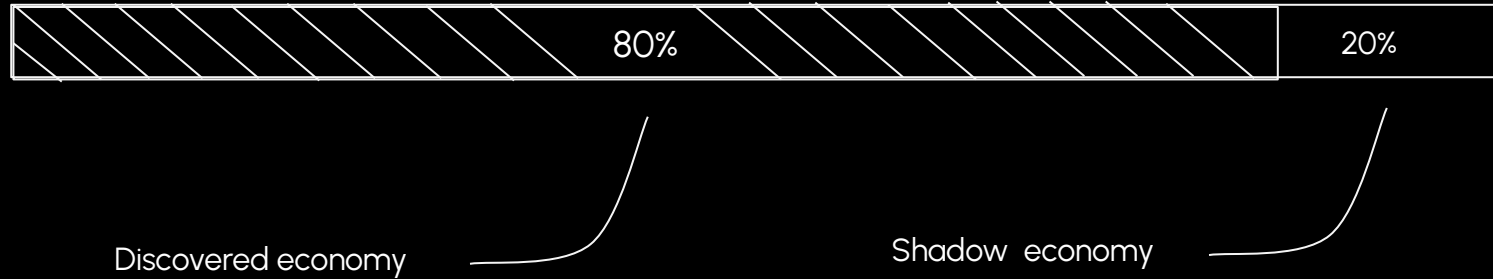

Our Solution

ML Prediction Model

We have built model to analyze patterns of hidden economy. We analyze every level of regional, industrial MCHJ & firms' shadow Index.

Why Shadow Index is important?

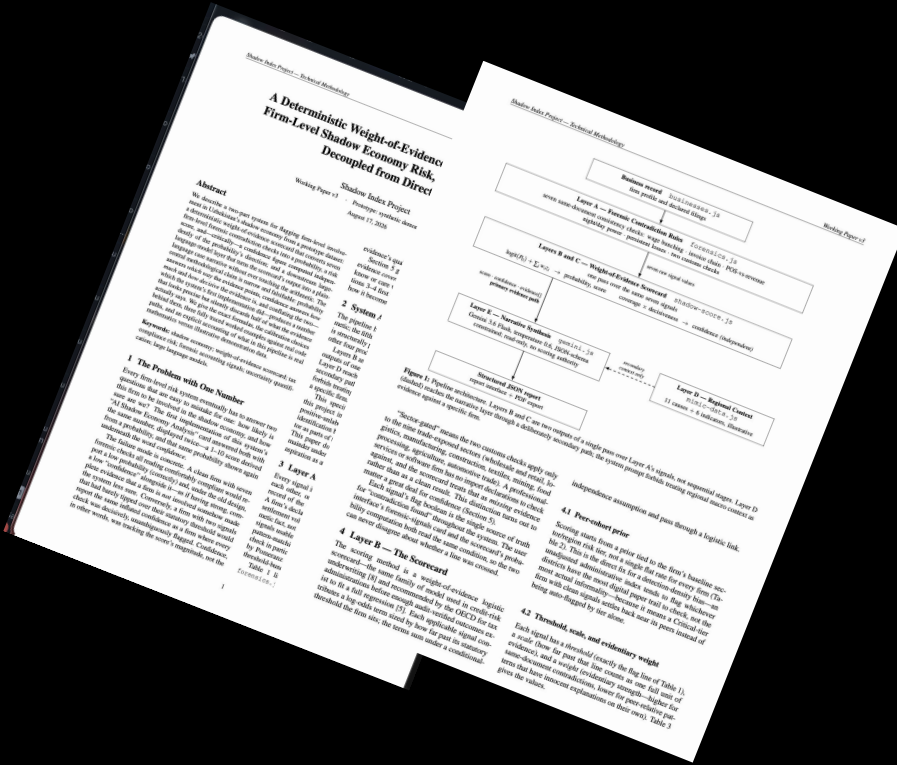

It will add 20% economical numbers to country's GDP, and impact on economic sectors

Also, it could establish the trust from foreign financial firms & investors

Less shadow economy being involved =
Higher attraction of investment

We don't use Generative LLMs to predict. So it is not guess or bet. There is advanced algebra and algorithmic complexity behind of it.

Architecture

Market analysis

TAM **\$24B**

SAM **\$220M**

SOM **\$5M**

Uzbekistan & neighbours

TAM **\$24B**

Global RegTech and compliance-analytics market (2026)

Governments, banks and audit firms buying software to detect undeclared activity

Source: *Fortune Business Insights, Straits Research*

SAM **\$220M**

CIS excluding Russia

Governance & tax modernization: UZ \$60M · KZ \$57M · KG \$35M · ADB \$70M

Source: *World Bank and ADB project documents*

SOM **\$5M**

Uzbekistan & immediate neighbours

Reachable in 3–5 years: tax/stats agencies, ~35 commercial banks

Year 3 target of \$1.03M = ~20% of SOM

Annual Pricing plans

Government

\$ 100k/y

We provide licensing of our platform to detect firm & regional level shadow economic levels

**Davlat
Soliq
Xizmati**

Consultancy firms

\$ 20k/y

We won't disclose firm level disclosure, but provide regional & industrial level of shadow Index

BCG

Banks

\$ 4-6k/y

**McKinsey
& Company**

Marketing model

Direct Outreach & High-Touch Platform Presentations

In-Person Presentations

Our core methodology relies on direct engagement. We walk clients through our live platform, demonstrating real-world utility and tailored workflows.

Marketing campaigns in social media

Cold calls & cold outreaches.

Through gov & cooperative connections.
